THE CHARM OF NATURAL COLOURS

Elements Collection

ELEMENTS COLLECTION

Dive deep into the earth and update your favourite colour into a sparkling Elements edition.

The Elements Collection finds her origin in the natural elements of Silver and Gold. This collection is, like our other paints, available in almost all colours. Exclusive for this new collection, 7 new colours were developed to complement our current colour collection. These new colours are a true reflection of luxurious alloys and elements. This collection is based on Classico and Traditional Paint. Both with their own unique appearance.

Gold – King of the world, this metal never goes out of style.

Brass – Everything has a silver lining, even gold.

Rose Gold – Sophisticated and polished refinement. This warm tone of golden perfection brings it all to a new level.

Copper – Feel the fire within.
Golden flames are glowing around you.

Bronze – The most comprehensive tone
you have ever seen. Warm, golden, and
pinkish, all under a cloudy atmosphere of
deep brown tones.

Silver – With perseverance you
can take on the world, stand your
ground and go for it!

Gunmetal – Be sturdy, be raw,
be something new.
Welcome to the next generation.
